Notes:

- 95th percentile volume exceeds capacity, queue may be longer. Queue shown is maximum after two cycles.

m - Volume for 95th percentile queue is metered by upstream signal.

Bold indicated queues in excess of capacity. Shading indicates Project impact.

Notes:

- 95th percentile volume exceeds capacity, queue may be longer. Queue shown is maximum after two cycles.

m - Volume for 95th percentile queue is metered by upstream signal.

Bold indicated queues in excess of capacity. Shading indicates Project impact.
