Project Location (include county)

Project Description: The Baker Fire Station (FS) Replacement Project (Project) consists of the demolition of an existing forest fire station and the construction of a new fire station and related facilities approximately 200 to 500 feet east of the existing FS. The structures to be demolished include: 1) a single-story office building, 2) a single-story barracks, 3) an apparatus building and associated ancillary structures. The proposed replacement forest fire station consists of: 1) a 2-engine, single building fire station with a Battalion Chief Office (7,164 sf), 2) a generator/pump/storage building (648 sf), and 3) ancillary improvements including grading, paving, curbs, gutters, sidewalks, new utilities, including fiber optic extension, storm drainage, septic system, water well, water storage tank and treatment system, hose wash rack and wharf hydrant, above ground fuel vaults. Other improvements include security fencing, gates, and lighting.

This is to advise that the Department of Forestry and Fire Protection has approved the above described project on
