Project Location: Parcels in San Geronimo Valley

Project Description: This Final Supplemental EIR (Final SEIR) has been prepared in accordance with the decision of the Court of Appeal of the State of California First Appellate District Division Three, which directed the County to set aside its approval of the Marin CWP (2007) and certification of the EIR with respect to San Geronimo Valley, pending the following:

- (1) analysis of potential cumulative impacts, and the range of potential consequences, on salmonids in San Geronimo Valley resulting from future buildout in the watershed in conformity with State California Environmental Quality Act (CEQA) Guidelines Section 15130 and the Court opinion, and
- (2) a description of mitigation measures relevant to salmonids in San Geronimo Valley in conformity with State CEQA Guidelines Section 15126.4 and the Court's opinion or a description of other findings in conformity with State CEQA Guidelines Section 15091.

As specified in the Court's order, the principal action considered in this Final SEIR is adoption and implementation of the Marin CWP (2007) with respect to the San Geronimo Valley and the potential for effects on salmonids. The Final SEIR is meant to fulfill the Court's mandate, and will be used with respect to the application of the Marin CWP's policies governing biological and wetland resources in San Geronimo Valley.

This is to advise that the Board of Supervisors approved the above described project on August 20, 2019, and has made the following determinations regarding the above described project:

1. The project in its approved form will not have a significant effect on the environment.
