SUBJECT: *Filing of Notice of Determination pursuant to Public Resources Code section 21108*

State Clearinghouse Number: 2017041050

Project Title: San Antonio Creek Scour Mitigation Project (Streambed Alteration Agreement No. 1600-2018-0056-R5)

Project Location (include county): The project is located at San Antonio Creek tributary to Ventura River, in the County of Ventura, State of California; Latitude 34.380323, Longitude 119.304569. The project is limited to work on the existing San Antonio Creek Bridge [No. 52-0065] located on State Route (SR) 33 at postmile (PM) 7.58.

Project Description: The California Department of Fish and Wildlife (CDFW) has executed Streambed Alteration Agreement number 1600-2018-0056-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, California Department of Transportation District 7 as represented by Mr. Paul Caron.

In order to meet current safety and health standards the activities involved in the project include upgrade to the bridge rail, increase the width of the deck for roadway shoulder, rehabilitate the structure in hopes to extend the life and serviceability of the bridge, and remediate fish passage of the bridge.

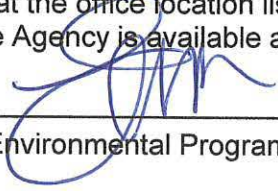

The project proposes to conduct work within the bed or on the banks of San Antonio Creek between May 1-October 31, outside the winter rainy season, and when no surface water flow is present. The project will be carried out over a 30 to 36 month period beginning summer of 2020. The project will temporarily impact San Antonio Creek by removing 0.37 acres of habitats associated with the stream and seasonal ground disturbance from excavation, remediation of fish passage impediments, and access into the stream.

This is to advise that CDFW, acting as a Responsible Agency, approved the above described project on June 20, 2019, and has made the following determinations regarding the project pursuant to California Code of Regulations section 15096, subdivision (i):

1. The project will not have a significant effect on the environment. This determination is limited to effects within CDFW's permitting jurisdiction as a Responsible Agency.
2. CDFW considered the mitigated negative declaration / negative declaration prepared by the Lead Agency for this project pursuant to California Code of Regulations section 15096, subdivision (f).
3. Mitigation measures were / were not made a condition of CDFW's approval of the project.
4. A mitigation reporting or monitoring plan was / was not adopted by CDFW for this project.
5. A statement of overriding considerations was not adopted by CDFW for this project.
6. Findings were not made by CDFW pursuant to California Code of Regulations section 15091.

The mitigated negative declaration / negative declaration prepared for the project is available to the general public at the office location listed above for the Lead Agency. CDFW's record of project approval as Responsible Agency is available at CDFW's regional office.
