## **Summary Form for Electronic Document Submittal**

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Decri	ption (Proposed actions, location, and/or conse	equences).		
industrial ma Conditional L a warehouse constructed i and upgrade the building e	terials for third party manufacturers and distribuse Permit (CUP) issued by the City. Prior to defacility, associated office/administrative facilities or about 1989. The proposed project that is substituted by the proposed project that is expected by the proposed project also included the condary water service line to the proposed project.	regulated and non-regulated packaged chemicals and outors. The proposed project is currently operating without a occupancy by the applicant, the project site was improved with less, loading docks and surface parking, which were the subject of this Initial Study includes interior renovations xisting warehouse facility or loading dock, or any changes to e installation of a redundant line, which was installed to ject site in the event of an emergency and the main service		

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The transporting and storage of materials to and from and within the project site is regulated to protect public safety and human health; however, with the implementation of Mitigation Measures HAZ-1 and HAZ-2 agreed to by Inland Star, potentially significant impacts to human beings, either directly or indirectly, would be reduced to less than significant levels.

## HAZ-1:

The Applicant shall maintain a real time electronic chemical inventory of all onsite chemicals and storage amounts and shall be made available to the City upon request. Inland Star shall remain in compliance with all inventory reporting requirements of the LACFD Health Hazardous Materials Division, per its regulatory requirements.

## HAZ-2:

The Applicant shall comply with the agreement with the City that it will not include the receipt or storage of any substances regulated by the CalARP program.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
