PROJECT DESCRIPTION:

The California Department of Corrections and Rehabilitation (CDCR) as lead agency has prepared, considered, and approved the Initial Study/Mitigated Negative Declaration (MND) for the Mental Health Crisis Facility (MHCF) Project at the Richard J. Donovan Correctional Facility (RJDCF), located in San Diego, California.

The MHCF would be constructed within the current property boundaries of RJDCF in the western portion of the existing prison grounds (West Site Option). Inmate-patients are typically transferred to a MHCF on a limited-term basis (approximately ten days); when stabilized, the inmates are transferred to correctional facilities that provide the required housing and on-going mental health treatment. The new two-story MHCF building would encompass approximately 69,000 gross square feet. The MHCF building would provide space for 50 beds dedicated to inmates in mental health crisis, along with mental health care treatment space, clinical support space, housing, recreation, custody, support, and administrative services. Housing, treatment, and support space would be built according to CDCR Design Criteria Guidelines; California Building Standards Code; California Code of Regulations (CCR) Title 24; mental health licensing; and other state design policies and regulations. Compliance with CCR Title 24 Building Energy Efficiency Standards would result in an energy-efficient building as it relates to electricity and natural gas consumption.

This is to advise that CDCR, as lead agency, approved the RJDCF MHCF Project on May 8, 2019, and has made the following determinations regarding the project, pursuant to Public Resources Code section 21108 and CEQA Guidelines section 15094:

1. CDCR has prepared and approved an MND for the MHCF Project. The MND provides a full analysis of all potential environmental effects associated with the MHCF Project. CDCR has considered the information provided in the MND prior to approving the MHCF Project.
2. CDCR, as lead agency, finds that the MND prepared for this project is in compliance with the California Environmental Quality Act (CEQA) (Pub. Res. Code § 21000 et seq.), and the CEQA Guidelines (14 CCR § 15000 et seq.).

3. Mitigation measures were made a condition of the approval of the MHCF Project and a Mitigation, Monitoring, and Reporting Plan was adopted by CDCR.
4. CDCR has concluded that the project, with mitigation, will not result in any significant impacts on the environment.

This is to certify that the MND for the RJD MHCF Project and the record of the project approval are available to the general public at: CDCR, Facility Planning, Construction and Management, 9838 Old Placerville Rd, Suite B, Sacramento, CA 95827. Contact Peter J Connelly Jr., Environmental Services Section, at (916) 255-3010 for copies of the MND and record of project approval.
