Notice of Completion ATTACHMENT 1

Olinda Last Mile Underserved Broadband Project Project Description

Site Description: The proposed project is located approximately 11 miles south of Redding in Shasta County. The proposed project area includes components throughout the unincorporated communities of Olinda, Igo, and Happy Valley, west of the City of Anderson and the Sacramento River. The majority of the project area is used for agriculture with limited residential and commercial properties dispersed throughout. Public land managed by the Bureau of Land Management lies near the western end of the project area.

Project Description: The proposed project involves the construction of a second-generation, very-high-bit-rate digital subscriber line (VDSL2) fiber-optic network capable of 25 Mps/5 Mps (megabit-per-second download/upload) speed. Approximately 24.6 km (15.3 miles) of new fiber-optic cable would be buried within protective conduit along existing roads in southwestern Shasta County.

The proposed project is partly funded by the California Advance Services Fund (CASF). On December 20, 2007, in CPUC Decision 07-12-054, the CASF program to provide grants that support projects that will

- a) Provide broadband services to areas currently without broadband access, and
- b) Build out facilities in underserved areas, if funds are still available.

CPUC Resolution T-17411 approved funding in the amount of \$1,833,689 from the CASF for the proposed project. Additional funding of \$399,853.20 or \$469,978 to complete the proposed project was approved in CPUC Resolution T-17517.
