Project Description: (please use a separate page if necessary)

The County of Merced proposes to widen the shoulders of an approximately 1-mile segment of Merced Falls Road just east of Henderson Park, in Merced County, California. The objective of the project is to improve long-term roadway safety. Currently, the roadway has no center median and no paved shoulders. The addition of paved shoulders and centerline and edgeline rumble strips is anticipated to reduce the potential for accidents caused by drivers drifting off the roadway.
