Sanitary Sewer Condition Assessment Repairs **Project Description**

The attached Initial Study analyzes the environmental impacts of carrying out six sanitary sewer repair projects proposed by the City of Santa Clara as part of its onoing Sanitary Sewer Condition Assessment Repairs Program (see Figure 1, over, for project locations). Five of the proposed repair projects would address Grade 5 defects identified in recent sanitary sewer condition assessments:

- Segment 23: cured-in-place pipe (CIPP) lining to address a rupture in a 10-inch-diameter vitrified clay (VCP) sewer pipe within Saratoga Avenue north of San Tomas Expressway
- Segment 29, 30, and 31: CIPP lining to repair corrosion of a 24-inch-diameter VCP sewer pipe within the parking lot at 1400 Kifer Road, the adjacent parking lot at 1390 Kifer Road, and across Kifer Road at 350 Oakmead Parkway and the neighboring vacant lot
- Segment 35: infiltration grouting to repair a leaking joint in the 42-inch-diameter elliptical reinforced concrete (RCP) sewer pipe extending beneath the Guadalupe River south of SR 237

At Segment 12, CIPP lining would be installed in dual VCP siphon lines that extend beneath San Tomas Aquino Creek from the San Tomas Aquino Creek Trail on the west bank to the parking lot at 2788 San Tomas Expressway (NVIDIA facilities). The goal of the proposed pipe lining at Segment 12 is to prevent future problems associated with inflow and infiltration (I&I) in this segment.

At each Segment, existing sewer manholes would also be rehabilitated or replaced as needed. Manhole rehabilitation and replacement may take place in conjunction with sewer pipe repairs, or may be pursued separately at a future date. For completeness, manhole rehabilitation and replacement are included in the activities covered in the attached Initial Study.

Approximate latitude/longitude and current General Plan land use designation and zoning for the project Segments are as follows.

| Segment | Lat/Long | GP Land Use Designation | Zoning |
|---------------------|---------------------------------|--|---|
| Segment 23 | 37°19'39.88"N 121°57'57.60"W | Within Saratoga Avenue ROW; area to northwest is designated Community Mixed Use and area to east/southeast is designated Parks/Open Space, Very Low Density Residential, and Medium Density Residential | Within Saratoga Avenue right-of- way; area to northwest is zoned Community Commercial and area to east/southeast is zoned Public or Quasi Public and Planned Development |
| Segments 29, 30, 31 | 37°22'24.72"N 121°59'12.33"W | Industrial Park (Segments 29, 30), Low Intensity Office / R&D (Segment 31) | General Industrial (Segments 29, 30), Light Industrial (Segment 31) |
| Segment 35 | 37°25'5.57"N 121°58'2.89"W | Largely within Guadalupe River Park; westernmost end is within area designated Urban Village and easternmost end is within area designated Residential Neighborhood San Jose | Largely within area zoned Public or Quasi Public; easternmost end is within area zoned Agricultural & Planned Development |
| Segment 12 | 37°22'13.88"N 121°58'6.63"W | Largely within area designated Parks / Open Space; east end of alignment in NVIDIA parking lot is within area designated High Intensity Office / R&D | Largely within Santa Clara Valley Water District ROW along San Tomas Aquino Creek; east end of alignment in NVIDIA parking lot is zoned Planned Development |
