Present Land Use/Zoning/General Plan Designation: Residential Project Description: (please use a separate page if necessary) San Gabriel Valley Water Company – El Monte (SGWC) proposes to construct a second reservoir at the existing Plant B14 sit to allow SGWC operational flexibility to store additional water supplied from Plant B12 during periods of low demand. The second reservoir will also allow for the existing reservoir to be taken out of service when required for routine maintenance. Lexisting Plant B14 facility is located within an approximately 4.02-acre site, and it currently consists of one 1.19 million gallor buried concrete reservoir, four booster pumps with a total pumping capacity of 4,000 gallons per minute, an emergency generator and electronic control equipment.  e Clearinghouse Contact:  ### Project Sent to the following State Agencies    Project Sent to the following State Agencies	☐ Coastal Zone	▼ Noise	Solid Waste	☐ Land Use
