

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Coronado Trunk Line Project

Lead Agency: Los Angeles Department of Water and Power

Contact Name: Jane Hauptman

Email: jane.hauptman@ladwp.com

Phone Number: (213) 367 - 0968

Project Location: Los Angeles

City

Los Angeles

County

Project Description (Proposed actions, location, and/or consequences).

The Coronado Trunk Line Project would involve construction, operation, and maintenance of a new 30-inch-diameter welded steel potable water pipeline. The new pipeline would be approximately 7,200 feet in length and would extend along segments of Robinson Street, Council Street, West Temple Street, and North Coronado Street. The proposed project would include installation and operation of a regulator/relief station vault and a flow meter vault within Robinson Street, as well as trunk line appurtenances along the alignment. The new trunk line would connect two existing trunk lines (the First Street Trunk Line within Beverly Boulevard and the Sunset Trunk Line within Sunset Boulevard). The new connection would enhance system reliability and resiliency during planned or emergency outages and allow water service to continue within the Solano Reservoir service area while the reservoir and other facilities in the area are being repaired and/or replaced.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

MM-AQ-1: Asbestos: Prior to construction, the Los Angeles Department of Water and Power (LADWP) shall implement SCAQMD Rule 1403 Measures for potential asbestos emissions. MM-BIO-1: Nesting Bird Avoidance and Protection: If vegetation trimming occurs during the migratory bird nesting season an avian nesting survey shall be conducted by a qualified biologist; MM-CUL-1: Inadvertent Discovery of Archaeological Resources: In the event that archaeological resources are exposed during construction activities, all construction work occurring within 100 feet of the find shall immediately stop until a qualified archaeologist can evaluate the significance of the find and determine whether or not additional study is warranted. MM-CUL-2: Inadvertent Discovery of Human Remains: In accordance with Section 7050.5 of the California Health and Safety Code, if human remains are found, the County Coroner shall be immediately notified of the discovery; MM-GEO-1: Paleontological Monitoring Program: Prior to commencement of any grading activity for the project, a qualified paleontologist shall attend the preconstruction meeting and be on site during all rough grading and other significant ground-disturbing activities in previously undisturbed Puente Formation deposits; MM-HAZ-1: Hazardous Materials Contingency Measures: Prior to construction, LADWP shall implement contingency measures that address potential impacts in soil, soil vapor, and groundwater from releases at 2608 Temple Street and 2520 Temple Street and potential crude oil present within the project alignment; MM-HAZ-2: Methane Zone Requirements: Methane study and recommendations will be prepared; MM-NOI-1: Construction Noise Reduction Measures; MM-NOI-2: Notification: Effective communication with local residents shall be maintained prior to and during construction; MM-TRAF-1: Construction Traffic Control Plan; MM-TCR-1: Should a potential Tribal Cultural Resource be encountered, construction activities near the encounter shall be temporarily halted within 50 feet of the discovery and LADWP shall notify the California Native American tribes consulting under Assembly Bill 52.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

not applicable

Provide a list of the responsible or trustee agencies for the project.
