RE: Native American Tribal Consultation, Pursuant to the Assembly Bill 52 (AB 52), Amendments to the California Environmental Quality Act (CEQA) (Chapter 532, Statutes of 2014), Public Resources Code Sections 5097.94 (m), 21073, 21074, 21080.3.1, 21080.3.2, 21082.3, 21083.09, 21084.2 and 21084.3, 9-Acres Sports Park Project, Orange County.

Dear Ms. Stonich:

Pursuant to Public Resources Code section 21080.3.1 (c), attached is a consultation list of tribes that are traditionally and culturally affiliated with the geographic area of the above-listed project. Please note that the intent of the AB 52 amendments to CEQA is to avoid and/or mitigate impacts to tribal cultural resources, (Pub. Resources Code §21084.3 (a)) ("Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource.")

Public Resources Code sections 21080.3.1 and 21084.3(c) require CEQA lead agencies to consult with California Native American tribes that have requested notice from such agencies of proposed projects in the geographic area that are traditionally and culturally affiliated with the tribes on projects for which a Notice of Preparation or Notice of Negative Declaration or Mitigated Negative Declaration has been filed on or after July 1, 2015. Specifically, Public Resources Code section 21080.3.1 (d) provides:

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.

The AB 52 amendments to CEQA law does not preclude initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction prior to receiving requests for notification of projects in the tribe's areas of traditional and cultural affiliation. The Native American Heritage Commission (NAHC) recommends, but does not require, early consultation as a best practice to ensure that lead agencies receive sufficient information about cultural resources in a project area to avoid damaging effects to tribal cultural resources.

The NAHC also recommends, but does not require that agencies should also include with their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential effect (APE), such as:

- 1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:
 - A listing of any and all known cultural resources that have already been recorded on or adjacent to the APE, such as known archaeological sites;
 - Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
 - Whether the records search indicates a low, moderate, or high probability that unrecorded cultural resources are located in the APE; and
 - If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.
- 2. The results of any archaeological inventory survey that was conducted, including:
 - Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code section 6254.10.

- 3. The result of any Sacred Lands File (SLF) check conducted through the Native American Heritage Commission was <u>negative</u>.
- 4. Any ethnographic studies conducted for any area including all or part of the APE; and
- 5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS are not exhaustive and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event that they do, having the information beforehand will help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: Katy.sanchez@nahc.ca.gov.

Sincerely,

Katy Sanchez

July 29, 2019

Campo Band of Mission Indians Ralph Goff 36190 Church Road, Suite 1 Campo, CA 91901

Dear Honorable Chairperson Goff:

Please consider this letter as formal notification of a proposed project as required under the California Environmental Quality Act, specifically Public Resources Code (PRC) Section 21080.3.1 and Chapter 532 Statutes of 2014 (i.e., Assembly Bill 52). Please respond within 30 days, pursuant to PRC Section 21080.3.1(d), if you would like to consult on this project. Please provide a designated lead contact person if you have not provided that information to us already.

The City of Cypress is proposing the 9-Acre Sports Park Project (proposed project). The proposed project involves the development of a new park on an approximately 6-acre portion of the 9-acre property at the southeast corner of Cerritos Avenue and Lexington Drive in Cypress. The proposed improvements include the construction of up to six youth soccer fields, a playground, two half basketball courts, and a parking lot and restroom/storage building. The park may be used to host evening sports practices/games. Figure 1 (attached) shows the location of the project site within Cypress and the larger region.

The proposed project would widen Lexington Drive between the existing driveway to the project site and Cerritos Avenue. Lexington Drive would be widened south of the project site's driveway at some point in the future as part of a separate project. Prior to construction of the park, the proposed project would require the removal of the stables and the trailers, equipment, and materials currently stored on the project site. The project would also require the leveling of topographic features and the filling in of a manmade depression associated with the former golf course. An existing maintenance yard, which is located on approximately one acre in the southwestern portion of the project site would continue to operate and is not included as part of the proposed project.

If you have any questions or concerns about the project, please contact me via email at cityplanner@cypressca.org or by phone at (714) 229-6727.

Sincerely,

Amy Stonich City Planner City of Cypress

The City of Cypress is proposing the 9-Acre Sports Park Project (proposed project). The proposed project involves the development of a new park on an approximately 6-acre portion of the 9-acre property at the southeast corner of Cerritos Avenue and Lexington Drive in Cypress. The proposed improvements include the construction of up to six youth soccer fields, a playground, two half basketball courts, and a parking lot and restroom/storage building. The park may be used to host evening sports practices/games. Figure 1 (attached) shows the location of the project site within Cypress and the larger region.

The proposed project would widen Lexington Drive between the existing driveway to the project site and Cerritos Avenue. Lexington Drive would be widened south of the project site's driveway at some point in the future as part of a separate project. Prior to construction of the park, the proposed project would require the removal of the stables and the trailers, equipment, and materials currently stored on the project site. The project would also require the leveling of topographic features and the filling in of a manmade depression associated with the former golf course. An existing maintenance yard, which is located on approximately one acre in the southwestern portion of the project site would continue to operate and is not included as part of the proposed project.

If you have any questions or concerns about the project, please contact me via email at cityplanner@cypressca.org or by phone at (714) 229-6727.

Sincerely,

Amy Stonich City Planner City of Cypress

GABRIELENO BAND OF MISSION INDIANS - KIZH NATION Historically known as The San Gabriel Band of Mission Indians recognized by the State of California as the aboriginal tribe of the Los Angeles basin

Project Name: City of Cypress 9-Acre Sports Park Project

Dear Amy Stonich,

Thank you for your letter dated July 29,2019 regarding AB52 consultation. The above proposed project location is within our Ancestral Tribal Territory; therefore, our Tribal Government requests to schedule a consultation with you as the lead agency, to discuss the project and the surrounding location in further detail .

Please contact us at your earliest convenience. Please Note :AB 52, "consultation" shall have the same meaning as provided in SB 18 (Govt. Code Section 65352.4).

Thank you for your time,

eg SC

Andrew Salas, Chairman Gabrieleno Band of Mission Indians - Kizh Nation 1(844)390-0787

Andrew Salas, Chairman Albert Perez, treasurer I

Nadine Salas, Vice-Chairman Martha Gonzalez Lemos, treasurer II Dr. Christina Swindall Martinez, secretary Richard Gradias, Chairman of the council of Elders

Juaneno Band of Mission Indians Acjachemen Nation - Belardes Joyce Stanfield Perry, Tribal Manager 4955 Paseo Segovia Irvine, CA 92603

Dear Honorable Chairperson Perry:

Please consider this letter as formal notification of a proposed project as required under the California Environmental Quality Act, specifically Public Resources Code (PRC) Section 21080.3.1 and Chapter 532 Statutes of 2014 (i.e., Assembly Bill 52). Please respond within 30 days, pursuant to PRC Section 21080.3.1(d), if you would like to consult on this project. Please provide a designated lead contact person if you have not provided that information to us already.

The City of Cypress is proposing the 9-Acre Sports Park Project (proposed project). The proposed project involves the development of a new park on an approximately 6-acre portion of the 9-acre property at the southeast corner of Cerritos Avenue and Lexington Drive in Cypress. The proposed improvements include the construction of up to six youth soccer fields, a playground, two half basketball courts, and a parking lot and restroom/storage building. The park may be used to host evening sports practices/games. Figure 1 (attached) shows the location of the project site within Cypress and the larger region.

The proposed project would widen Lexington Drive between the existing driveway to the project site and Cerritos Avenue. Lexington Drive would be widened south of the project site's driveway at some point in the future as part of a separate project. Prior to construction of the park, the proposed project would require the removal of the stables and the trailers, equipment, and materials currently stored on the project site. The project would also require the leveling of topographic features and the filling in of a manmade depression associated with the former golf course. An existing maintenance yard, which is located on approximately one acre in the southwestern portion of the project site would continue to operate and is not included as part of the proposed project.

If you have any questions or concerns about the project, please contact me via email at cityplanner@cypressca.org or by phone at (714) 229-6727.

Sincerely,

Amy Stonich City Planner City of Cypress
