PROJECT DESCRIPTION	: (Briefly describe projec	t including need, purp	ose, location, limits, right-of-way	requirements, and			
activities involved in this box. Use Continuation Sheet, if necessary.)							
Caltrans intends to transfer	Caltrans intends to transfer to the County of Tulare the following property:						
Relinguishment Number 88114 the newly realigned segment of Road 116 where it meets State Route							
201 just east of Sand Creek Bridge (post mile 12.48), on the south side of the highway (Segment 1 of 1).							
CALTRANS CEQA DETER	RMINATION (Check of	one)		5 C			
Not Applicable – Caltrans is not the CEQA Lead Agency Environmental Impact Report under CEQA Based on an examination of this proposal, supporting information, and the above statements, the project is:							
Exempt by Statute. (PRC 2			e statements, the project is.				
Categorically Exempt. Clas	s . (PRC 21084;	14 CCR 15300 et seg					
Based on an examination of apply:	this proposal and suppor	rting information, the f	ollowing statements are true and	exceptions do not			
• If this project falls within exempt class 3, 4, 5, 6 or 11, it does not impact an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law.							
over time.	 There will not be a significant cumulative effect by this project and successive projects of the same type in the same place, over time. There is not a reasonable possibility that the project will have a significant effect on the environment due to unusual 						
circumstances.							
 This project is not located on a site included on any list compiled pursuant to Govt. Code § 65962.5 ("Cortese List"). This project does not cause a substantial adverse change in the significance of a historical resource. 							
X Common Sense Exemption. [This project does not fall within an exempt class, but it can be seen with certainty that there is no possibility that the activity may have a significant effect on the environment (14 CCR 15061[b][3].)

The following environmental resource has been identified at Relinquishment Parcel 88114:

Segment 1 is underlain by a high potential paleontological resource. High potential includes rock units which, based on previous studies, contain or are likely to contain significant vertebrate, significant invertebrate, or significant plant fossils. These units include, but are not limited to, sedimentary formations that contain significant nonrenewable paleontological resources anywhere within their geographical extent, and sedimentary rock units temporally or lithologically suitable for the preservation of fossils. Excavation or grading activities on Segment 1 could discover scientifically significant fossils.
