Present Land Use/Zoning/General Plan Designation:

Agriculture

Project Description: *(please use a separate page if necessary)*

Project Description:

A request by Brodiaea Inc. for a Major Grading Permit (PMTG2019-00017, PMTG2019-00018, PMTG2019-00019) to construct three high-density polyethylene (HDPE) lined agricultural reservoirs within the existing Truesdale Vineyard to provide frost protection and irrigation (project). The three agricultural reservoirs consist

Note: The state Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

January 2008

of the West Bluff Reservoir, East Bluff Reservoir, and the Foothill B Reservoir. Each reservoir will be supplied by existing polyvinyl chloride (PVC) waterlines and existing onsite wells and reservoirs located on the subject property. The project would result in the disturbance of 17 acres of a 1,541-acre site (comprised of three separate parcels, two of which are adjacent). The project is within the Agriculture land use category and is located at 3880 Shell Creek Road, approximately 5.2 miles from the unincorporated community of Shandon. The site is in the Shandon-Carrizo Sub Area North of the North County Planning Area.

The Foothill B Reservoir (APN 037-311-029) is located approximately 1,700 feet to the west of Shell Creek Road and approximately 5.5 miles southeast of the community of Shandon. The reservoir would be approximately 22 feet deep with a maximum capacity of 48 acre-feet. This reservoir would encompass a total area of approximately 5.70 acres and would require approximately 46,783 cubic yards of cut. The West Bluff Reservoir (APN 037-311-025) is located approximately 4,000 feet (0.76 mile) west of Shell Creek Road and approximately 6 miles south of the community of Shandon. The reservoir would be approximately 22 feet deep with a maximum capacity of 48.87 acre-feet. This reservoir would encompass a total area of approximately 5.92 acres and would require approximately 51,234 cubic yards of cut. The third reservoir is the East Bluff Reservoir (APN 037-291-037), located approximately 2,700 feet to the east of Shell Creek Road and approximately 5.2 miles southeast of the community of Shandon. This reservoir would be approximately 26 feet deep with a maximum capacity of 49 acre-feet. This reservoir would encompass a total area of approximately 5.18 acres and would require approximately 43,989 cubic yards of cut.

A 6-foot-tall non-climb fence would be installed around the perimeter of each reservoir. A 12- to 15-inch pipe (stub out) would be installed on the exterior slope of each of the reservoirs to allow future connection to the existing onsite irrigation system. All three reservoirs would be served by existing electrical utilities; no utility extensions are proposed. Access to the project would be provided by existing farm roads and no new driveways or roads would be constructed.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
